

Updates

Great progress has been made on the Fitness Center construction. The roof is now going into place and the structural welding of the frame is near completion. We expect to see the walls and windows of the structure beginning to be put into place in the coming weeks.

Your continued patience is really appreciated. With the construction going on, the limited space and one unusable exit in the Fitness Center, we really need to pay close attention to the number of members using the room.

We want to be sure that our members have a safe environment to work out in. With this being said, we would encourage members to use the alternate equipment in the hallways. We would also encourage anyone that has the flexibility in their schedule to avoid the busy evening hours between 6pm and 9pm Monday through Thursday. We appreciate your patience as we continue to work on expanding the Fitness Center for you.

What to Expect

Next Week:

- Roof installation

Near Future:

- Walls and windows being constructed

Impacts to Members

With the construction of the expansion's frame and addition of the roof we anticipate that there will be some additional noise coming from the exterior of the building.

Tell Us What You Think

While we anticipate some impacts during construction, the staff at the CRC is committed to mitigating these impacts as much as possible. Let us know how we are doing, by filling out a comment card, talking to our staff, or emailing us at chris.ghione@mhcrc.com. We really feel the final project will be "worth the weight".
